XDR Rapid Protect

Microsoft based bulletproof protection, with easy-onboarding, flexible contracts, and unrivalled real-time reporting and transparency.

The increasingly complex state of cyber security means traditional SIEM solutions are falling short.

The right security professionals are hard to find, and expensive to train and keep.

Attacks like ransomware increasing in volume and sophistication.

Your attack surface is expanding, and attackers are adapting quickly.

Complex security tooling is costly, inefficient, and lacks integration.

Kocho's XDR Rapid Protect managed security operations service

Kocho use Microsoft Sentinel and Defender to provide a fully cloud-native managed XDR service. We don't ship logs and your data never leaves your environment.

It's powered by AI, and fully supported by Kocho's UK-based team of security experts; providing your business with a personalised security partnership.
